WebApp prototype (using Bootstrap)

The screenshot shows a web application's settings page. At the top, there is a navigation bar with links: Settings, Home, Search, New offer, Edit profile, Support, Settings (which is the active tab), Log out, Email, Password, and Sign in. Below the navigation bar, the main content area has a light gray background. It contains two configuration sections: 'Date format' and 'Display phone number'. The 'Date format' section includes a dropdown menu labeled 'Select date format'. The 'Display phone number' section has two radio buttons: 'yes' (selected) and 'no'. A large blue 'Save' button is positioned below these sections. At the bottom of the page, there is a horizontal navigation bar with icons for back, forward, search, and other document-related functions.
